OVP HEALTH Recovery Center

At the OVP HEALTH Recovery Center in South Point, OH, we hold ourselves to a higher standard when it comes to inpatient care and treatment for people living with addiction and substance use disorders.

We regularly and voluntarily invite intense scrutiny of our facilities and programs to ensure we're meeting or exceeding the most rigorous standards of care in the nation.

Recently, the American Society of Addiction Medicine (ASAM) and the Commission on Accreditation of Rehabilitation Facilities (CARF) examined our center with a fine-toothed comb, and awarded us with a three-year accreditation, as well as Level of Care Certifications for Levels 3.1, 3.5 and 3.7.

So, why invite such intense scrutiny when it's not mandatory? Because we view each and every patient at the OVP HEALTH Recovery Center as a member of our "family." And when a family member needs help, nothing but the highest standard of care is acceptable.

Jackie Rebman, MSN, RN
Director

Jonathan A. Hess, MD
Medical Director
